| 9. D. Bose | 10.  | 11.  | 12.  |
| 13.  | 14.  | 15.  | 16.  |

Dr. Jafor Ali Akhan, Principal of the college, takes the chair and presides over the meeting, TIC requests all the members to take an active part in the meeting.

Resolution adopted-

1. Now the previous resolutions of the meeting which was held on 26/9/18 read and the house unanimously approved that as there is no need to change any more.
2. The house decides that the class test short, quiz or Question-answer competition, student- seminar, essay writing competition., paper presentation, Writing of model answer quiz preparation, practical test etc. will be continued as before in the evaluation of the students, so that the students can get good results in the final exam. Students who are unable to appear/participation in the said examinations/competition must submit an application form to the Principal with proper reasons, otherwise action will be taken against them. Apart from the said subjects, the head of the department may adopt any means in the matter of internal assessment which should be consistent with the University of Burdwan.
3. We have a special request to the industrialists or experienced or esteemed personalities/people who are members of this house, those (Students) who are getting good results in the final examination from our college, should manage them to get a job in the future or manage them as much as possible so that they get any job in future. A few days ago, a mobile company conducted a seminar in our college on the management for student regarding job opportunities. Hope some students can relate to it. Besides, if the members of this house of our college inform about the job facilities and job facilities in Birbhum district or other districts, then the students of our college will be especially benefited. It is better to arrange some hands-on training for the students so that they can get a job in the future after the final examination; attention is being drawn to the principal of our college in this regard.
4. NCC and NSS, are two wings of our college, their activities can enhance the prestige of the college, these two units can create job opportunities for the students of the college. Therefore, this committee requests them to perform their duties properly as directed by Burdwan University. In remote rural areas where people/students are not aware or ignorant, or their children fail to plan for the future, NSS and NCC are requested to go and camp in those villages to sensitize them.
5. A long standing problem is that our college does not have special toilets or bathrooms for physically challenged students. College authorities could not provide these facilities to the students due to financial constraints. Therefore, this house requests the present principal to make good arrangements for physically and mentally challenged students to come to this college so that they get toilet and bathroom facilities or other facilities.

6. The house held extensive discussions on rainwater harvesting plans and waste management. Conservation of natural resources is an imperative duty of man, in this view the college authorities are requested to manage the rain water so that it can be recharged, although we already have this management but it needs to be reformed. I hope the principal will take initiative in this matter, but our college has accumulated a lot of unused notebooks or many examined answer scripts and unused computer, the college authorities are requested to look into the proper management of those unused materials, so that there is no harm to the natural environment, i.e. they can be scientifically recycled.
7. Those students who have not received Kanyashree or Rupashree or Vivekananda Scholarship or Merit cum Means Scholarship yet, or have some problem in those matters due to which they are not able to attend classes or disrupt their studies, to our present Principal to resolve the said issues. It is requested to resolve the said issues.
8. The decision of this house is that our college has only one generator with that generator for academic and administrative functions when there is load shedding, the principal is specially requested to install a green diesel DG set or get some help from the government to arrange the same.
- As there is no agenda to discuss, the meeting ends with vote of thanks to and from the chair.
